ADMIN WHY Failure of B4 to do standard investigation to uncover the source of the enthetas and the actual false reports so that standard handling could be done on Coast Guard lines.

ETHICS WHY Fixed idea on what the source of the false reports were and how to handle them.

WHO Terry Milner

IDEAL SCENE Standard B4 actions, to uncover the source of the false reports on Coast Guard lines and the location and content of all false reports obtained plus immediate PR handling and legal handling to correct the false reports so that no further investigation on C of S or Ships is done.

PLAN Get the Coast Guard intel files for the LA and DC areas, and feed the data to PR and Legal.
